contains 100% post consumer waste.

rainshadow™

The Natural Rainscreen

Midnight Iron

Rain shadows, nature's rainscreen, form when mountains obstruct the passage of rainfall, causing dryness on the leeward side. Inspired by the summits that form a nationally-renowned rain shadow on the edge of the Olympic Mountain Range, **Richlite RainShadow™**... *The Natural Rainscreen* is available in four colors.

Boulder Bronze

Benefit

Richlite RainShadow™ patinas over time and has an inherently natural look. The water-resistant material requires no sealing on the face, edges or fastener holes. With over 65 years of manufacturing experience in the industrial, marine, extreme sports and architectural markets, the through-color panels are durable, versatile and easy to maintain.

Buckhorn Brown

Sustain

Made with either FSC® Certified or post-consumer recycled paper, Richlite RainShadow™ can contribute to LEED® points. Our innovative WE™ Technology system captures solvents from the manufacturing process and recycles them into energy, which has reduced our CO2 emissions by over 30%.

Copper Peak

Create

Richlite's flexible manufacturing system allows for refined customizable panels. Distinguish projects to suit innovative styles with multi-colored edge reveals, integrated printed murals and engraved design features.
