

LEED INFO SHEET

7 Points

IceStone is a proud Member of the United States Green Building Council (USGBC).

The USGBC developed the Leadership in Energy and Environmental Design (LEED) Green Building Rating System in order to transform the built environment to sustainability by providing the building industry with consistent, credible standards for what constitutes a green building. There are different types of LEED rating systems, and all are continuously refined. You can check the latest versions at the [USGBC website](#).

IceStone durable surfaces have helped many projects obtain their LEED credits.

LEED POINTS THAT ICESTONE SURFACES CONTRIBUTE TOWARDS: LEED-NC, LEED-CI & LEED-CS		
LEED POINT	CREDIT ID	HOW
recycled content: 10%	MR 4.1	recycled content by weight: 63% pre-consumer, 7% post-consumer.
recycled content: 20%	MR 4.2	
innovation in design: recycled content 30% or greater	ID	
regional materials: 20% manufactured regionally	MR 5.1	26% by weight extracted from York, PA. 100% of product manufactured in Brooklyn, NY.
regional materials: 10% extracted and manufactured regionally	MR 5.2	
low-emitting materials: adhesives & sealants	EQ 4.1	IceStone is VOC-free, contains no petroleum products. We recommend special low-VOC sealants.
innovation in design: cradle-to-cradle certification	ID	IceStone has achieved Cradle-to-Cradle Gold Level Certification by MBDC.
